On Average			68%

### Carbon Footprint

- All products are made using non-toxic materials and **no** VOC (Volatile Organic Compounds) are involved.
- All raw materials are UK sourced and our products are made on the premises. This results in the cutting down of the mileage that the product components travel.

### Recycled materials

By weight, the product is made from up to 71% recycled materials.

- **Board Core** - mainly made from by-product and recycled bulking mass from the board and timber industry- it is in 60% recycled
- **Frame** - made from 100% compressed fibres bound by water-based adhesives, over wrapped with a pre-printed foil
- **Packaging** - made from 99% recycled card board

### Recyclable materials

- **Packaging** - made from 99% unlined card board also widely recyclable.
